SUMMARY

B.Tech AI & ML student with a strong foundation in Python, C++, Data Structures & Algorithms, Machine Learning, Deep Learning, Computer Vision, and Generative AI. Experienced in building AI applications using PyTorch, scikit-learn, OpenCV, and LangChain. Strong problem-solving skills with an interest in AI/ML, Generative AI, and Software Engineering roles.

TECHNICAL SKILLS

Languages: Python, C++, C, SQL, OOP

AI/ML & Data Science: Machine Learning, Deep Learning, Data Science, NLP, Computer Vision, Generative AI, Agentic AI

Frameworks & Libraries: NumPy, Pandas, Matplotlib, scikit-learn, PyTorch, OpenCV, LangChain, Agno, Flask

Databases & Vector Databases: MySQL, Pinecone, ChromaDB, Supabase, PostgreSQL

Developer Tools: Git, GitHub, GitHub Actions, CI/CD, VS Code, Antigravity

Operating Systems: Windows, macOS

INTERPERSONAL SKILLS

Team Collaboration | Analytical Thinking | Problem Solving | Adaptability | Mentoring | Conflict Resolution | Active Listening

EDUCATION

Chandigarh Group of Colleges

Bachelor of Technology in Artificial Intelligence and Machine Learning | CGPA: 7.1

Landran, Mohali

2023 - 2027

S.N.A.S Model. Sen. Sec. School

Intermediate (PSEB) | Percentage: 70

Mandi Gobindgarh, Punjab

2022 - 2023

PROJECTS

PrismaForge | Neural Style Transfer Engine <http://13.60.212.185/>

Python, PyTorch, VGG19, AdaIN, Computer Vision

- Built a deep learning neural style-transfer engine using VGG19 and AdaIN, enabling arbitrary style synthesis from content and reference images.
- Engineered an end-to-end computer vision inference pipeline supporting 512px/1024px resolution and 0–100% style-intensity control for customizable image generation.
- Developed an interactive web interface with optimized inference, responsive controls, and a modern glassmorphic UI for real-time AI-powered image stylization.

LookHere | AI-Powered Smart Attendance System <https://lookhere.streamlit.app>

Python, PyTorch, dlib, scikit-learn, Resemblyzer, Streamlit, Supabase

- Built and deployed a multimodal AI attendance system using face recognition and voice identification for automated classroom attendance.
- Implemented 128D facial embeddings + SVM with 0.6 verification threshold and Resemblyzer d-vector embeddings with 0.7 cosine similarity for identity verification.
- Integrated QR enrollment, authentication, real-time dashboards, and PostgreSQL-backed attendance tracking.

CERTIFICATIONS

- PYTHON** | Issued by CodeWithHarry, 03/2025
- MACHINE LEARNING** | Issued by TCIL-IT, Chandigarh, 06/2025
- DATA SCIENCE** | Issued by CodeWithHarry, 7/2025
- DATA ANALYSTICS** | Issued by Deloitte

ACADEMIC ACHIEVEMENTS

CODING COMPETITION, SECOND POSITION

- Achieved second position out of 3 participants in a competitive coding contest during the annual (Chandigarh group of colleges/science day event).

GOOGLE DEVELOPER GROUP ON CAMPUS CORE TEAM MEMBER

- Selected as a Core Team member for GDG, organizing technical events and workshops, fostering a community of developers.
